Chapter 1

Introduction

Lol1

Chapter 2

Requirements

2.1 Understanding of requirements

This is where the customers descriptions and the groups interpretations of them.

Chapter 3

Alternative solutions

Here we describe possible solutions to fulfil the requirements.

Chapter 4

Project Management

4.1 Development process

4.2 Team Roles and Organization

A description of your team organization - Roles and responsibilities, A justified choice of process model for the development work, Will you work iteratively and/or incrementally, will you make a mock-up or prototype; phases and iterations, or perhaps the customer has some ideas about how things should be done.

Chapter 5

Development Environment

5.1 Code-sharing

5.2 IDE

What development tool were used (Github was demanded by customer), and we used eclipse because there was many tutorials and add-ons for android development.

Chapter 6

Implementation

6.1 Plans

How we implemented the project, with plans and likely a week-by-week description.

6.2 Results

Plans and results should be included here.
